JULY 10 – AUGUST 18 LASSONDE'S WOMEN IN ENGINEERING STUDENT MENTORSHIP PROGRAM

A six-week program for young women finishing grade 11.

Lassonde School of Engineering at York University is hosting its first Student Mentorship Program for female students finishing grade 11. This is a 6-week paid position in which these young women will be paired with undergraduate researchers and have the opportunity to get a hands-on experience working on real research projects! Along with playing the role of a research assistant, the chosen students will get to attend great events and get a taste of post-secondary life!

Research water systems in Israel and the Netherlands to find ways to reduce Toronto's water footprint.

Develop forecasting methods to help prevent floods in megacities like Toronto.

Collect geospatial data to assess how accessible York University's campus is to people with physical, visual or mental impairments.
